DRC EX PIPE GUARD 4 ST

- Universal exhaust pipe guard for 4 stroke bikes.
- Protect head pipe from stones and rocks.
- Guard body is made of A 5052 aluminum with titanium anodized finish.
- Easy to install with enclosed stainless steel pipe bands.
- Fits pipe diameter : 26 mm to 50 mm
- Flexible guard design, applicable on most recent 4 stroke dirt bikes.

Part #	Color
D31-01-110	Ti-Color

DRC EX PIPE GUARD 2 ST

- Universal exhaust pipe guards for 2 stroke bikes.
- Protect pipe from stones and rocks.
- Guard body is made of A 5052 aluminum with titanium anodized finish.
- Easy to install with enclosed stainless steel pipe bands.
- Flexible guard design, applicable on most recent 2 stroke dirt bikes.

Part #	Color
D31-01-130	Ti-Color

DRC HEAT PROTECTOR

- Oval design universal heat protector for 4 stroke exhaust head pipe.
- Made of stainless steel.
- Fits exhaust pipe diameters from 26 mm to 50 mm.
- Comes complete with all mounting hardware needed.

Part #
D31-02-201

Replaced mount kit

Part #
ZC31-3901

DRC STAINLESS EXHAUST CLAMP

- Stainless heavy duty exhaust clamp for 4 stroke bikes.
- Made of stainless steel for less corrosion than steel clamps.
- Available in 3 different sizes to fit most exhaust pipes.

Part #	Length
D31-32-360	Diameter 36 - 39 mm
D31-32-400	Diameter 40 - 43 mm
D31-32-440	Diameter 44 - 47 mm

DRC EXHAUST JOINT GASKET

- Replacement exhaust joint gasket.
- Available for most Japanese dirt bikes.
- The same quality as OEM exhaust joint gasket.

PRO EXHAUST SPRING

- Quality replacement spring for your exhaust.
- One end of the spring swivels for a perfect fit.
- Available in 4 different lengths.
- Galvanized to prevent corrosion.
- 4 springs per pack.

Part #	Length
D31-31-157	57 mm (2.28 ")
D31-31-175	75 mm (3 ")
D31-31-183	83 mm (3.32 ")
D31-31-190	90 mm (3.6 ")

DRC

STANDARD EXHAUST SPRING

- Replacement exhaust springs.
- Available in 4 lengths.
- Galvanized to prevent corrosion.
- 5 springs per pack.

Part #	Length
D31-31-057	57 mm (2.28 ")
D31-31-075	75 mm (3 ")
D31-31-083	83 mm (3.32 ")
D31-31-090	90 mm (3.6 ")

DRC

SILENCER REPACK KIT

- Silencer re-pack kit for all silencers.
- For both 2 strokes and 4 strokes.
- Size : 55 x 33 cm t = 12 mm
- Heat proof to 770 °C

Part #
D31-21-120

DRC

HEAT SHIELD

- Protects plastic side panels, gas tank, radiator hoses, etc. from heat damage from exhaust or other hot parts.
- Flexible, cut to fit.
- Adhesive on one side and aluminum shielding on the other.

Part #	Size	Thickness
D31-03-112	250 mm x 245 mm (10 " x 9.8 ")	0.35 mm

DRC

SILENCER PLUG

- Double soft rubber ribs provides an excellent fit to keep water, bugs and dirt out of your exhaust system.
- Available in 2 different sizes, Black and Red handle colors.

S size

(Exhaust opening size from 15 mm to 30 mm)

Part #	Color
D31-14-302	Black
D31-14-304	Red

L size

(Exhaust opening size from 30 mm to 50 mm)

Part #	Color
D31-14-402	Black
D31-14-404	Red

STOCK REPLACEMENT LEVER

- Stock replacement brake and clutch levers.
- Available in standard and short length.
- MX, ED and dual sports models available.
- Sold Separately.

DRC SADDLE BAG SUPPORT for CC50/110

- Saddle bag support for up muffler for CC50 / 110.
- By setting two types of mounting positions, down muffler mode and up muffler mode, it can be widely used according to the mounting muffler.
- Material: Steel black powder coating finish.
- Pipe diameter: $\phi 16$

Part #	Bike
D60-01-001	CROSS CUB 50(AA06) '18-20
	CROSS CUB 110(JA45) '18-21
	SUPER CUB50/110 (AA09/JA44) '18-20

**Side bag installed image
(up muffler mode)**

Up muffler mode

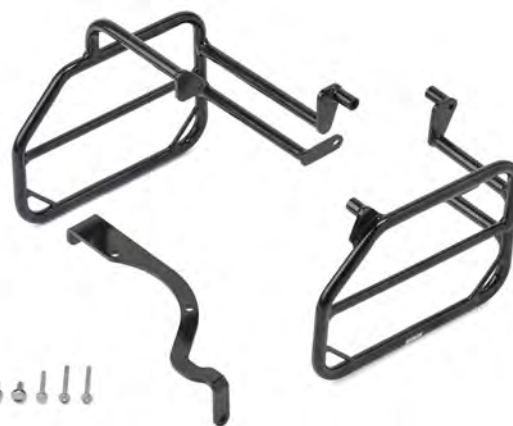

Right side attached / left side position adjustable mounting.
Install position of bag support
(from the outside of the genuine carrier)
Left side: + 16mm off set to the stock position / Right side:
Adjustable in the range of +76 ~ + 96mm to the stock position.

Down muffler mode

Installation to attach in a symmetrical position
Install position of bag support
(from the outside of the genuine carrier)
Left : +16mm off set to the stock position / Right: +16mm off
set to the stock position

**Lightweight and sturdy 16mm diameter
pipe holds the side bag securely!**

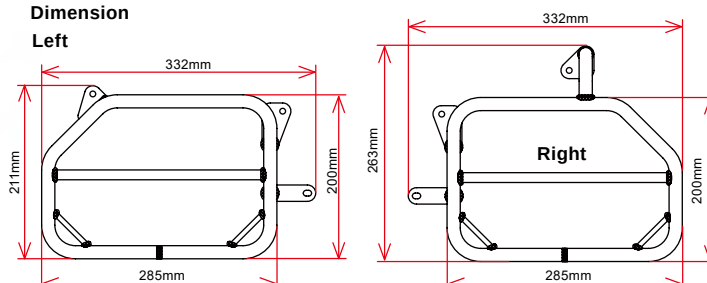

DRC SADDLE BAG SUPPORT for CT125/TRAIL125

- Side bag support for CT125 & TRAIL125.
- Protects the side bags from being caught in the tire and from the heat of the muffler.
- The outer frame is made of a lightweight and highly rigid 16mm diameter hollow pipe.
- The intake duct side allows access to the tool box even when the side bags are installed.
- Can be used with Delta Muffler.

Part #	Bike

ACCESSORIES

A pillion pad can be installed. Long seat style creates a more stylish look. Made of 16mm diameter, 2.5mm thick steel pipe with sufficient rigidity and strength.

Not only does it look stylish, but it also reduces weight in the rear area.
[Stock comparison]
Stock carrier: 4.36kg
DRC Compact Carrier: 1.88kg (with grab bar installed: 2.58kg)
Weight reduction of approx. 2.5kg.

A grab bar (part number: D60-10-022) is available as an option. Useful when tandem riding or when loading luggage. Detachable design even with the compact carrier installed.

Can be used with the side bag support for CT125 (Part No. D60-01-021).

COMPACT CARRIER CT125/TRAIL125

Light and stylish look

- A compact carrier designed for the CT125 and TRAIL125.
- Unlike the large design stock carrier, this compact design provides a light and stylish look.
- In addition, weight of the rear area is reduced.
- Can be used with Honda stock pillion seat (77300-GT0-M00).

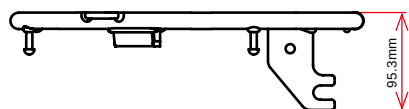

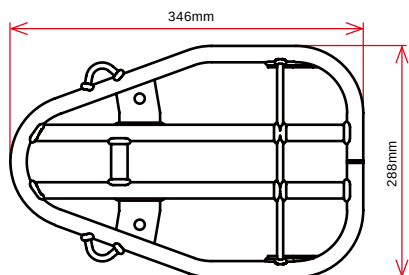

[Please note] The factory tool box cannot be installed.

TYPE-602 LED FLASHER

MOTO LED flashers may not work properly without optional parts.

■ Important note for using LED flasher

LED flashers have very low consumption and the stock flasher relay may not work properly. The most frequent problem, is that the LED may flash at a quick rate using stock flasher relays. Please refer to the chart below to choose our IC relay or Resistor wire for your installation.

	Electric consumption	Difficulty of installation	Parts cost	AC or DC
IC Relay	Low	Skills required	Cheap	DC
Resistor wire kit	Same as stock	Easy	Reasonable	DC/AC

* DRC IC Relay can not be used with motorcycles (XR50/100M, XLR250, WR250F/WR450F, XR650 etc) due to the AC power design. Please use Resister wire kit for AC power motorcycle.

DRC MOTOLED INDICATOR WIRING

This kit is required when flasher operates like hazard indicators after the IC relay installation.

Place these harnesses in-between the wires from the pilot lamp and the wires from the chassis.

* Some models (*3) require this kit for proper operation.

*3 ----- XR230, KSR110, KLX250, D-TRACKER-07 etc.

Part #

[D45-91-051](#)

DRC MOTOLED RESISTOR WIRE

When standard bulb flasher is replaced by LED flasher, electric consumption becomes low and stock flasher relay does not work correctly. This Resistor wire helps stabilize the electric power to the LED flasher from stock flasher relay.

: Electric power consumption level is the same as with stock flasher.

: Easy installation.

: One resistor per flasher.

* Some models (*2) require 2 resistors.

: This harness will produce heat when used. Please install in areas where heat is not a problem.

*2 ----- XR230, DR250R, DRZ400S/SM etc.

Part #

[D45-90-710](#)

DRC MOTOLED IC RELAY for DC

Stock flasher relay is designed to work with standard bulb flashers.

When the stock flasher is changed to LED flashers, the stock flasher relay does not work properly due to the difference in power consumption between the stock flasher bulb and the LED flasher. This IC Relay enables LED flashers to work in any configuration.

* Some models require the use of the stock IC relay along with this IC relay. (*1)

: Reduced electrical power usage.

: Some technical skills required for installation.

: One IC relay required for each bike.

: Flasher pilot light can not be used with position light when installed on XR250.

: If the flasher operates like hazard indicators after installation, Indicator lamp wiring kit is required.

: Works on 12V DC.

Can not be used with WR250F/450F

*1----- RMX250S, DRZ400S/SM etc.

Part #

③ Connect battery charging clips to the terminal unit and start easy battery charging.

DRC

Release Tie Wrap

- Releasable tie wrap, can be re-used.
- Length : 150 mm
- 6 pcs per pack.

Part #
[D58-10-101](#)

DRC

Kill Switch

- Universal engine kill switch.
- Terminals are included for installation.

Part #
[D45-00-100](#)

Protects the meter from scratches, dirt and UV!

Hard type (PET)

Works for the instrument panels with a flat surface.

Soft type (TPU)

Works for meter instrument panel with curved surfaces and 3D shapes. It adheres to curved surfaces and is difficult to peel off.

When applying to a spherical or curved surface, work carefully so as not to create wrinkles.

Meter Screen Protective Film

Scratch-proof
Stain-proof

DRC

METER SCREEN PROTECTIVE FILM

- Meter Screen Protective Film provides strong protection.
- A film for just fit cut into a meter shape (1 mm clearance around the meter)
- Compatible with CRF1100L touch panel.
- Two types of materials, PET and TPU.
- PET clear hard type for flat meter shape.
- Clear soft type for curved and three-dimensional shapes.
- When the film is removed, no marks are left.
- 2 sheets per set.

ACCESSORIES

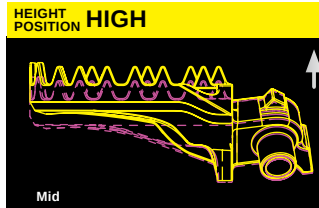

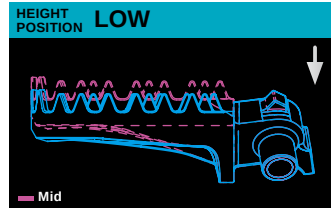

DRC WIDE FOOTPEG

- Durable steel wide foot pegs.
- Made of chromium molybdenum steel for extreme durability.
- 50 mm step width provides better grip and control.
- Mid, High (5 mm higher than medium peg position) and Low (5 mm lower than medium peg position) are available for rider's body type or use. (Excluding some models.)
- Black powder coating finish.

* Foot peg height may differ from stock peg height on some models.

High gravity point allows for easy lean on the bike.
Good for shorter riders.

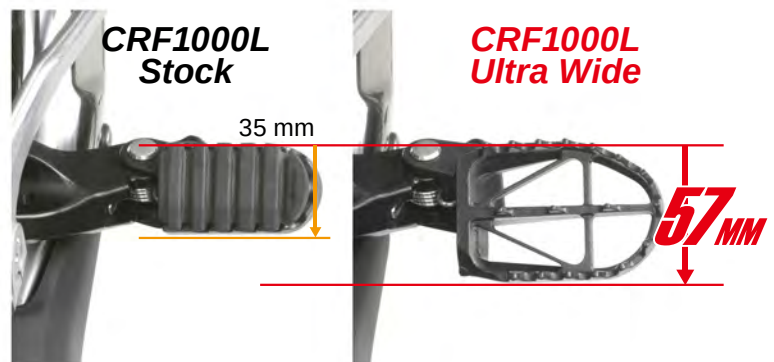

Low gravity point provides better traction during standing ride.
Good for taller riders.

DRC ULTRA WIDE FOOTPEG

- Wider foot pegs than our DRC foot pegs for pro use.
- 57 mm width foot pegs provides better foot peg traction and control.
- Made of chromium molybdenum steel for extreme durability.
- Black powder coating finish.

#1 U-Wide Stock +5 mm
#2 U-Wide Stock -5 mm
#3 Spring included
#4 D48-01-110 FOOT PEG SPRING PIN SET are required for flitting

DRC

MOTARD FOOT PEG

- 50 mm step width provides better grip and control.
- Shorter length, higher peg position for super moto racing use, prevents peg body wear by hitting asphalt.
- Equipped with replaceable peg slider.
- Made of chromium molybdenum steel for extreme durability.
- Black powder coating finish.
- Replacement peg slider available.

EQUIPPED PEG SLIDER

DRC

REPLACEMENT PEG SLIDER

Comes in pairs.
4 screws for attachment are included.

#2 Stainless steel pins cannot be used when D48-03-211 is installed.

Best spring for grown-up to ride

DRC

DRC FRONT FORK 85/150cc adult specification

- Originally designed a spring that gives the most suitable suspension effect when going off-road on a mini motocross.
- The optimum spring rate is set for each model with a weight of 65 kg as a guide.
- Achieves stress-free and comfortable sports riding by improving stability and reducing the feeling of bottoming out on motocross courses.

Bike	Year	Part #	Spring rate	Ratio

[Caution] Assemble the front with the marking on the bottom.

CRF150R

When doing off-road sports driving on a trail bike or a fan ride bike.

"I want a little more traction"

"The suspension is hard so that I get tired"

"I feel floating"

Designed with the concept of "just right" to eliminate such dissatisfaction

DRC

DRC FRONT FORK / REAR SHOCK SPRING

- Uniquely designed springs that provide the most suitable suspension effect when traveling off-road.
- With a weight of 65 kg as a guide, a spring rate of -15% to +30% is set depending on the model.
- Improves stability and reduces the feeling of bottoming out when driving on dirt, and realizes comfortable sports riding without stress in various fields.

DRC REAR SUSPENSION LINK KIT LOWDOWN / LIFT UP

- Kit to lift up or lowdown the bike.
- Allows to optimal bike position for a rider by changing seat height, link ratio, caster angle.
- The lowdown type : The amount of descent is designed to maximize the performance without losing the off road function.
- The high lift type : Allows improved nimble steering and better traction as the wheelbase becomes shorter with a steep caster.
- Easy installation with two bolts.
- Black color.

[Important note]

As the link ratio changes, the lowdown type makes the suspension softer, and the high lift type becomes harder. Please re-adjust the front and rear suspension as necessary.

Depending on the setting, modification may be required on the side stand in some case.

DRC FF STROKE INDICATOR 48-49 mm 2 pcs

- STROKE INDICATOR for front fork.
- Convenient for suspension setting and confirming 1G.
- For installation, remove the fork and spread it from the top of the outer tube.
- The material is fluororubber, which is excellent in oil resistance, heat resistance, and weather resistance.
- Compatible with inner tube diameters of Φ 48 mm to Φ 49 mm.

RADIATOR CAP

- High pressure radiator cap for racing use.
- High pressure of 1.6 kgf / cm² increases coolant's boiling point.
- Prevents the boiling and vaporization of the coolant during hard riding.
- Protects your engine from overheating.

DRC RIM TAPE

- Protect your tube from nipple heads, valve and rim burrs.
- Excellent water resistant design, prevents dirt, mud, sand and water from entering inside of tire from nipple holes.
- Less sticky glue remains on the rim when replaced, easy to replace.
- Tape roll type, can be used for many wheel sizes.
- Available 2 sizes.

Part #	Rim size	Size
D43-10-024	1.40 to 1.60	Width 24mm / Thickness 0.68mm / total length 5m)
D43-10-030	1.85 to 2.15	Width 30mm / Thickness 0.68mm / total length 5m)

DRC AIR VALVE CAPS PLASTIC 4 PCS

- Plastic air valve cap.
- Available in 4 factory colors.
- Comes in 2 pairs and 2 colors.

Part #	Color
D58-03-211	Blue & Green
D58-03-212	Red & Yellow

DRC AIR VALVE CAPS

- Aluminum air valve cap.
- Add some "bling" to your bike.
- Available in 7 beautiful anodized colors.
- Comes in pairs.

Part #	Color	Part #	Color	Part #	Color
D58-03-102	Blue	D58-03-105	Ti-Color	D58-03-109	H-Blue

DRC RIM LOCK

- Die-cast aluminum body with molded rubber flap to prevent abrasion of inner tube.
- Recommended for use on all off road bikes or any use that requires low tire pressures.
- Bolt is made of SUS304 stainless steel to prevent corrosion.
- Available in 5 different sizes.

Part #	Size
D43-21-014	1.40 inch
D43-21-016	1.60 inch
D43-21-018	1.85 inch
D43-21-021	2.15 inch
D43-21-025	2.50 inch

DRC RIM HOLE PLUG

- Plug cap for rim lock holes on the rim.
- Prevents mud and dust from entering the tire through the rim lock hole.
- Comes in pairs.

Part #
[D58-03-301](#)

DRC UNI-FLOW HOSE

- Gas cap hose with one way valve.
- Prevents fuel from flowing out of gas tank.
- Swivel valve design allows smooth removal of gas cap without twisting the gas cap hose.
- Valve is made of 7000 grade aluminum.
- Available 4 hose colors.

Part #	Color
D58-08-201	Black
D58-08-202	Red
D58-08-203	Blue
D58-08-206	Orange

DRC SKID PLATE FOAM

- Prevents mud from accumulating and adding weight to your machine.
- Installs between your skid plate and engine.

Part #	Size
D58-17-012	300 mm x 150 mm x 40 mm

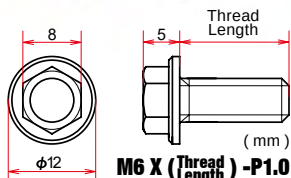

ALUMINUM BOLT

- Made of 7000 grade aluminum.
- Light weight.
- Select from flange-head or taper-head for each bolt size.
- Suitable for mounting plastics and more.
- Colors available: Titanium, Gold, Red, Blue and Black.
- Available in M6 size.
- Tightening torque M6 Bolts 6N /m

Make your bike look stylish with anodized aluminum washers and bolts.

** Please check Tightening torque with your service manual.
Routine screw and bolt torque checking required.
Please do not use aluminum bolts and nuts in areas of high temperature.

DURA LIGHT Type

DURA STD Type

DURA FRONT SPROCKET

- Front sprocket available from DRC, made of durable SCM 420 steel.
- Great looking black zinc finish for corrosion resistance.
- Front sprockets available for most dirt bikes.
- Lighter front sprocket design available for recent racing models.

DURA LIGHT Type

** Enter tooth number to complete part number when ordering.

DRG DURA REAR SPROCKET

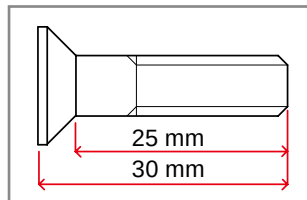

- Made of durable heat treated steel that is stronger and longer lasting than aluminum sprockets.
- The best balanced, durable and light weight design. 30% lighter than standard steel sprockets available on the market.
- Precision laser cut for the lightest steel sprocket design.

DRG SPROCKET BOLT / NUT SET

- Sprocket mounting hardware.
- Kit includes 6, 8 mm tapered bolts, 6 washers and 6 locking nuts.
- Can be used for most dirt bikes.

Part #	Bolt Size
D58-32-282	M8 x 25 mm

DRG CHAIN ROLLER

- More durable than stock
- Available in 3 diameter sizes.
- Colors available: black, blue and red.

DRC

BEAD HOLDER

- Keeps the tire bead down during the tire change.
- Hooks over the spoke and pushes down on the bead for easy tire installation.
- Durable rubber grip for easy operation.

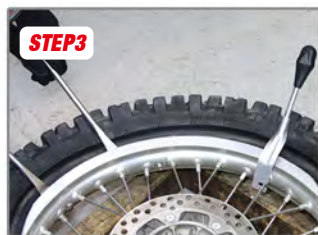

Part #

[D59-11-071](#)**STEP 1**

Insert the tire bead into the wheel rim after installing the tube.

**STEP 2**

Insert lever part of the bead holder into the wheel rim and hook over spoke as shown above picture.

**STEP 3**

Keep the tool inserted and insert the tire bead into the wheel rim.

**STEP 4**

Tire bead won't come off with bead keeper. Smooth and easy operation.

DRC

AIR VALVE PULLER

- Easy to pull the air valve stem through the hole on the rim.
- Useful during tire changes and flat repairs.
- Air valve puller head may also be used for air valve core removal.

Color

[D59-38-201](#)

Black

[D59-38-202](#)

Red

[D59-38-203](#)

Blue

**MXA RATING**

This simple little tool is worth its weight in gold when it comes time to go valve stem fishing.

**STEP 1**

Pass air valve puller head through the valve hole.

**STEP 2**

Install valve puller head on air valve on the tube.

**STEP 3**

Replace air valve in the tire.

**STEP 4**

Pull on the air valve wire. The air valve will appear.

**DRC**

DRC AIR VALVE BIG NUT

- Nut for valve stem that can be used without a wrench.
- Also for use as a tool to help pull the air valve stem when changing the tire and keep the valve stem out when pumping the air in.
- Knurled surface is easy to turn.

Part #	Color	Size
D59-04-220	Red	W 20 mm x T 6 mm

Before

Hard to approach with tool and to pump air in.

After

DRC AIR VALVE EXTENSION

- Extension air valve changes the valve angle.
- Great for use on small wheel motorcycle, motard wheels with a big brake disc.
- For use with straight type air pump hose.

Part #
D58-12-100

DRC AIR VALVE EXTENSION with HOSE

- Air valve extension with a hose.
- Easy to operate with flexible rubber hose.
- Hose length : 150 mm

Part #
D58-12-110

Check air pressure while filling air

Presta / Schrader

Motorcycle / MTB

DRC

F505 Floor Pump

- Floor pump with air gauge that can check air pressure while filling with air.
- Sturdy steel barrel and easy-to-use handle for stable pumping.
- Compatible with both Schrader and Presta valves.

Part #

[D59-35-505](#)

Color	: Silver
Material	: Steel (barrel portion)
Size	: H610 mm x W230 mm
Weight	: Approx. 1.2 kg
Maximum Air	: 1100 kPa/160 psi

Reversible adapter for both Schrader and Presta valves.

An air gauge capable of measuring up to 11 bar/160 PSI.

When mounted on a valve, the lever part is locked by standing it up. This prevents it from coming off during operation.

Presta / Schrader

Motorcycle / MTB

Dual stroke

DRC

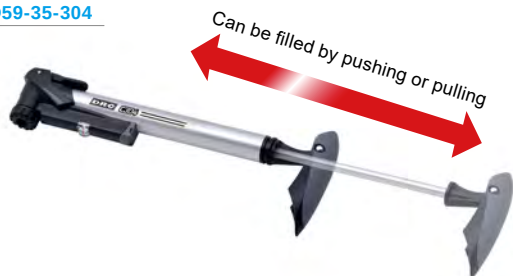

C304 2-WAY Mini Pump

- Mini pump for motorcycles and mountain bikes.
- Double action is used to fill the air by both pushing and pulling.
- Aluminum body with excellent lightweight and compactness.
- Embossed finish T-shaped grip prevents slippage and easy to fill the air.
- Includes a gauge that allows you to fill the air while checking the air pressure.
- Reversible adapter for Schrader Valve and French valve.
- Comes with a cycle holder that can be attached to a MTB.

Maximum pressur	: 820kPa/120psi
Body size	: L270 X W40 X H25mm
Weight	: 132g

GYROSTAND2

DRC

GYRO STAND 2

- A folding stand that makes it easy to adjust wheel runout, balance, and check bearings all in one unit.
- It is useful not only for maintenance of laced wheels, but also for restoring old bikes and reassembling rims of other models.
- Rim sizes up to 23 inches and rim widths up to 5 inches can be used.
- Compatible with wheel bearings with an inner diameter of 15 mm or more.
- Wheel balance adjustment is available up to 21 inches.

Part #

D36-52-130

DRC

OPTIONAL 10mm SHAFT SET

- For wheel bearings with inner diameters from 10mm to 15mm.

Part #

D36-52-191

Wheel Balance

Double bearing roller for wheel balancing.

Wheel Truing Bearing Check

Lock wheel rod for wheel truing and bearing check.

MXA RATING

Given its reasonable price, the DRC Gyro stand could pay for itself in a couple of do-it-yourself wheels-truing sessions.

The dial gauge is not included.

A dial gauge can be attached to the pipe in front using a magnetic base. The truing can be taken with higher accuracy.

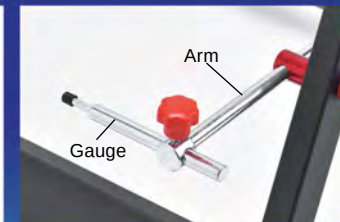

FUNCTION

Folds up to take up no extra space and is easy to carry around.
Width 340mm x Length 370mm x Height 110mm

For runout adjustment and bearing check, set the shaft in the holder and tighten the black knob to fix it.

Adjust the vertical and horizontal runout by moving the arm and gauge to match the wheel.

Shaft and clamp head for bearing inner diameter of 15mm or more.
Clamp the hub with the clamp head and fix the wheel. Optional 10mm shaft set
- For wheel bearings with inner diameters from 10mm to 15mm.
D36-52-191

A ring-type stopper on the shaft prevents from misalignment to the left or right when balancing.

For balancing, the double bearing rollers allow for smooth and accurate operation.

The gauge section can be measured in increments of 5 mm and 2 mm. The tip is rubberized to prevent damage to the rim surface.

DRC PRO CHAIN TOOL

- Designed to break, press side plates and rivet most 420, 428, 520, 525 and 530 standard and O-ring chains.
- Light weight aluminum body.
- Straight forward parts construction.
- Conveniently store cut and rivet pins in the handle.
- Fits nicely in the tool box and no loose parts.
- Replacement cut pins and rivet pin available.

Gauge for chain play

Extension ratio shown by percentage.

Can be used as gauge for chain play.

A. Lightly attach Chain Checker on the chain roller.

B. Lower the measuring nib. Extension rate will be shown on measuring nib where it touches the chain roller.

DRC CHAIN CHECKER

- Chain extension ratio checker. Very easy to check chain extension on your bike.
- Chain sizes from 420,428,520,525 and 530 can be checked.
- Chain play gauge is printed on the body.

Throttle tube cut

Handlebar cut 1

Can be held by vise

Comes with 5 mm hole drilling guide for handlebar.

Handlebar cut 2

DRC **HANDLE BAR SAW GUIDE**

- Saw guide designed to easily cut handlebar and throttle tube.
- Make your handlebar cut easy and vertically.
- Comes with 5 mm hole drilling guide for handlebar.
- * Do not over tighten when you set this saw guide on throttle tube.
- * Do not use electric saw with this kit.

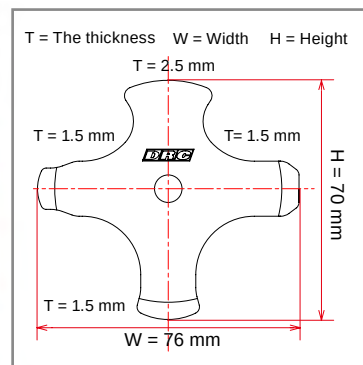

Part #	Cutting pipe size
D59-45-211	From 22.2 mm to 26.8 mm

DRC **TIMING PLUG WRENCH**

- Wrench can be used for most motorcycle engine plugs.
- Comes with 4 different wrench sizes.
- Made of durable steel with black electro coating finish for less corrosion.
- Can be used for helmet visor screws.

Part #	Size
D59-45-101	W : 76 mm x H : 70 mm

DRC **OIL BOTTLE**

- Portable 2 Stroke oil bottle.
- Easy to mix fuel for your 2 Stroke at gas station.
- Measures 5 cc and 30 cc.
- Small enough to fit almost anywhere.

Part #
D59-44-020

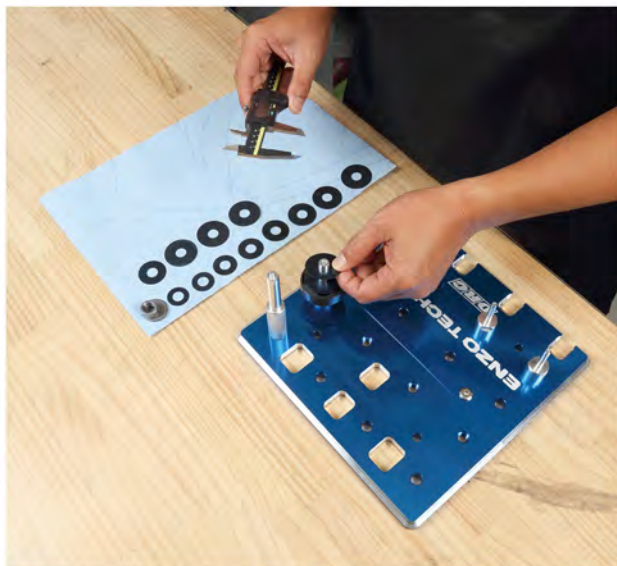

DRC **SPRING HOOK**

- Easy exhaust spring removal.
- Excellent grip with the PVC coated handle.

Part #
D59-08-020

Can also be used by disassembling, for front / rear use.

ENZO DRC

VALVE SETTING PLATE

ENZO DRC VICE ADAPTER

- Hold this adapter by vice, and attach base valve wrench for easy compression valve maintenance.
- Can be used with all ENZO DRC Base valve wrenches.
- Made of machined aluminum, with titanium anodized finish.

Part #
[ED59-37-250](#)

ENZO DRC OIL INJECTOR

- A tool to easily and reliably inject fork oil when raising the oil level with the Front suspension setting.
- Remove the air valve screw on the top cap and insert the end of the hose.
- Even with a handle or number plate, you can inject oil without spilling.
- Closed type syringe is easy to operate with light force and enable accurate metering. The piston has excellent oil resistance and can be disassembled and cleaned. Capacity is 20ml and spare piston seal is included.

DRC GAS CAP EXTRACTOR

- Special tool for removing rear suspension gas cap.
- Does not damage gas cap valve thread.

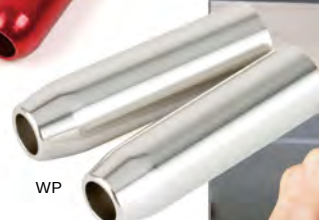

Part #	Material
D59-37-110	Aluminum

Also useful to pull out the top cap of the air front suspension.

KYB/SHOWA

WP

DRC RCU SEAL HEAD INSERT KIT

- Seal guide for Rear suspension seal head.
- Does not damage oil seal during installing suspension seal.
- Available for KYB/SHOWA and WP rear suspension.

Part #	Suspension	Outer diameter	Inner diameter	Material
D59-37-135	KYB/SHOWA	φ14/φ16/φ18	φ12	Aluminum
D59-37-136	WP	φ18	φ12/φ16	

DRC SEALHEAD PUSH TOOL

- A useful tool for disassembling rear shock.
- It can be easily pushed down without damaging the seal head when detaching the circlip of the shock body.

Part #	Material
D59-37-166	Aluminum

DRC COMP ADJUSTER SOCKET 24 mm

- A special tool to remove the compression adjuster of the rear shock.
- It is possible to easily remove the shock body of a shape which doesn't allow to be approached by the spanner or the monkey wrench. For 24 mm width.
- By providing a square hole of 3/8 inch socket, you can use the ratchet wrench to increase work efficiency and use torque wrench to control tightening torque.

Part #	Material
D59-37-164	Aluminum

DRC AIRVALVE ADAPTER 69 mm

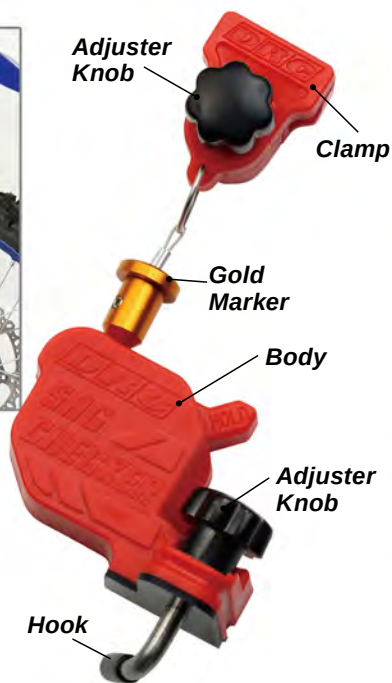

- Easy access to the air valve in the back place where shock pump was difficult to access.
- * Please be sure to install it on the shock pump and then set it on the bike.

Part #	Length
D59-37-162	69 mm

You can also check front fork sag with this tool.

After checking sag, remove clamp from side panel, and attach sag body.

DRC SAG CHECKER

- Allows you to measure suspension sag by yourself easily.
- Measure front and rear suspension sag easily with this kit.
- Clamp comes with rubber parts and will not damage your plastic fenders or side panels.
- Clamp anywhere on side panels, rear fender or sub frames, to measure suspension sags.
- Compact design, it does not take much space in your tool box.

Part # **D59-37-180** **PAT. 1595308**

DRC LINK LUBE INJECTOR

- Linkage bearing grease tool.
- Allows placing bearing needles on bearing race while greasing linkage bearing.
- Will fill enough grease on your suspension linkage bearing.
- Clean linkage grease works with this tool.

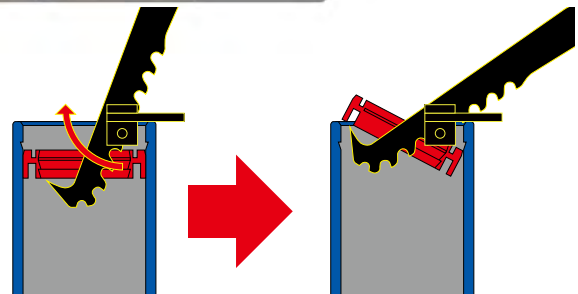

Part # **D59-18-301** * Can not place all bearing needle on injection body.

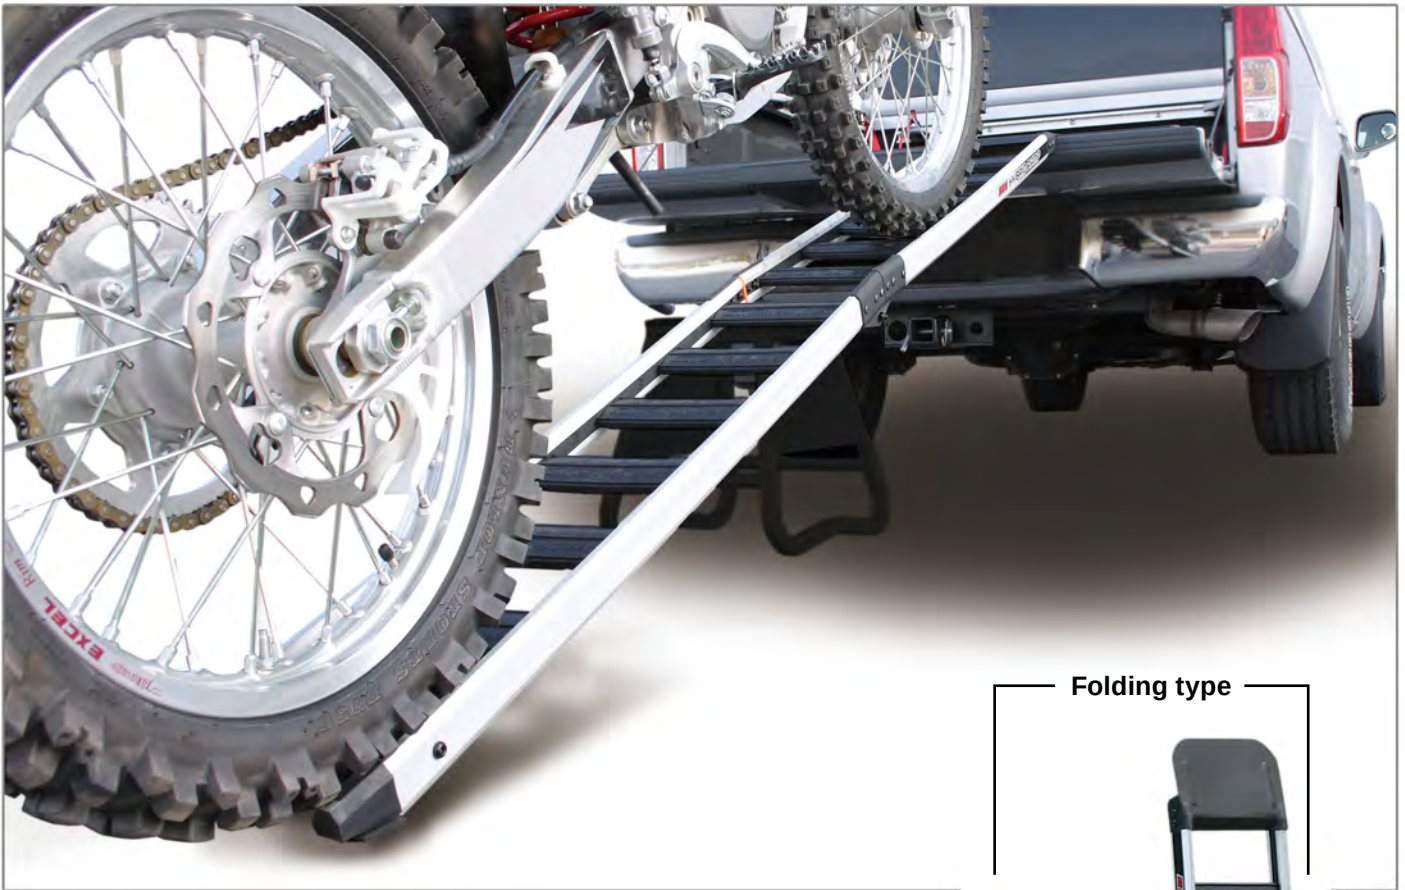

DRC FORK OIL SEAL REMOVER

- Using the principle of leverage, the fork seal removal tool makes removing fork seals easy.
- Won't scratch your front fork body.

Part # **D59-28-010** * Do not reuse oil seal.

Non-slip rubber under the tongue to prevent slippage and protect your truck bed.

ABS constructed foot caps for stability.

3 different style ramps to fit your needs.

Folding type takes less space in your van or truck.

Straight type

DELTA BARREL 4 SILENCER

- Improved emission efficiency and exhaust pressure. DELTA BARREL 4 silencer provides high power in the entire power band.
- Special inner silencer body and multi-stage expanding mid pipe design provides power at the high end, and rich torque at bottom and middle bands.

Mid pipe is made of stainless steel. Silencer body is light weight aluminum. Exhaust center of gravity is positioned for motorcycle control performance. The best silencer for street or trail.

Designed for street, enduro, super motard use.

Sound output : 94 db

FIM approved end-cap design

Use with stock or DELTA head pipe.

Gasket not included. Use stock gasket.

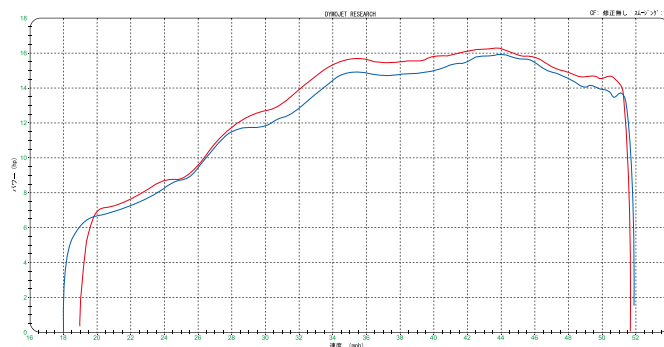

FIM approved aluminum die-cast end cap.

Silencer body and mid pipe are clamped in place by springs.

Brushed aluminum finish, light weight silencer body. Uses the best inside restrictor specific for each model. This provide a smooth exhaust gas circulation and increases horse power.

Multi-stage expanding mid pipe design provides more torque at the middle and bottom ranges.

KLX230 Power Graph (hp)

DELTA TORQ HEAD PIPE

- DELTA head pipe for more power and torque when using DELTA silencers.
- Developed for characteristics specific to each bike for more performance.
- Provides better power, acceleration and engine traction than stock head pipe.
- Upgrades performance characteristics for each model.
- Made of SUS304 stainless.

COOLMAX

Coolmax is a high-performance material with the threat of quick-drying performance that is 6 times that of cotton. There are four grooves in one fiber, and the capillary action allows sweat to diffuse quickly. The diffused sweat evaporates while taking away the temperature of the body surface due to the heat of vaporization, resulting in a high cooling effect.

THERMOLITE®

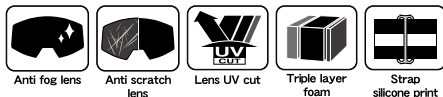

THERMOLITE

Thermolite is a high-performance material that has macaroni-shaped fibers and has excellent heat retention and quick-drying properties. Warm air can be retained in the hollow part of the fiber, so the warmth is maintained. In addition, it has a quick-drying performance that is 1.5 times faster than cotton, preventing sweat chills during exercise. Even in sports with intervals, the inside is always warm and dry.

Anti-fog processed model with both functionality and fit

White

DFG SPEED GOGGLE JP

- Speed goggles with simple pursuit of necessary features.
- Anti-fog coating on the inside of the lens prevents fogging and obstructs vision.
- Three-layer foam of varying densities with excellent water absorption provides a soft fit.

Custom capacity in any combination! Highly feature touring bag

DFG

MODULE MOTO PACK

MODULE MOTO PACK comes in three different sizes and can be combined with each other or with attachments to customize the total capacity to your preference. The bags can be connected to each other to suit different situations one bag for commuting to work, school, or day trips two bags for one or two nights three bags for overnight camping tours and so on.

MODULE MOTO PACK 7.5

Waterproof touring bag in 7.5L size, ideal for casual outings with a small amount of luggage.

Color	Black
Capacity	7.5 L
Size	W230 x D105 x 310 (mm)
Material	Tarpaulin, polyester(900D)
Accessories	2 Load belt kits
Part #	DG2811-0007

MODULE MOTO PACK 15

15L size waterproof touring bag, ideal for a little more luggage, such as a light jacket or simple equipment.

Color	Black
Capacity	15 L
Size	W230 x D160 x 390 (mm)
Material	Tarpaulin, polyester(900D)
Accessories	2 Load belt kits
Part #	DG2811-0015

MODULE MOTO PACK 30

Waterproof touring bag in 30L size, ideal for carrying large items or a lot of luggage.

Color	Black
Capacity	30 L
Size	W300 x D220 x 460 (mm)
Material	Tarpaulin, polyester(900D)
Accessories	2 Load belt kits
Part #	DG2811-0030

Loading with 4 bags

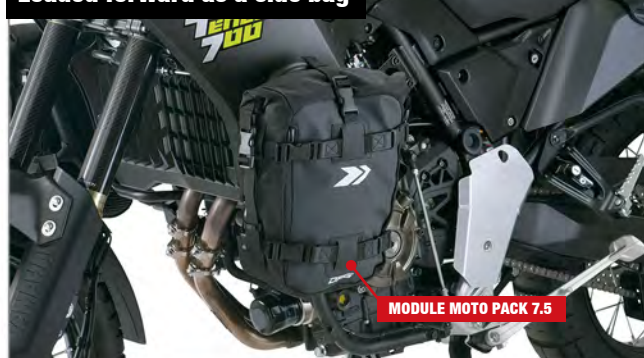

Loading with 3 bags

Loading with 2 bags

Loaded forward as a side bag

Attach the supplied loading belts to the rear carrier or other frame. (4 places).

Insert the stretch belt into the slit of the bag to be loaded. (2 places)

Two loading belts attached to each bag.

PALS webbing is placed on the side of the bag. Ideal for attaching small items such as hats, keys, etc. using carabiners, etc. The 15L and 30L bags also have pulse tape on the top and bottom, making it convenient for attaching folded jackets and other items.

The slit on the front of the bag through which the loading belt is threaded is made of tarpaulin with excellent tearing strength.

Separate waterproof inner bag (PU coated) can be easily removed. The zipper at the connection is not waterproof.

A pocket on the front of the bag is convenient for storing small items, and a watertight zipper is used for superior waterproofing.

DUG SIDE BAG BASE ON-ROAD TYPE JP

- Special attachment for using the Module Moto Pack 7.5/15 as a side bag. Attached to the vehicle body, it serves as a mounting base to attach the Module Moto Pack.
- By loading the luggage in a lower position, a lower center of gravity is achieved, allowing for a more stable ride.
- General-purpose design allows installation on a wide variety of on-road bikes.
- Easy installation without tools.

Part #	Size(not include belt)
DG2891-0001	W370mm×H190mm

DUG SIDE BAG BASE OFF-ROAD TYPE JP

- Special attachment for using the Module Moto Pack 7.5/15 as a side bag. Attached to the bike body, it serves as a mounting base to attach the Module Moto Pack.
- By loading the luggage in a lower position, a lower center of gravity is achieved, allowing for a more stable ride.
- Also, the motopack is installed diagonally so that it does not interfere with front/rear movement when standing, emphasizing dirt riding.
- Easy installation without tools.

Part #	Size(not include belt)
DG2881-0001	W840mm×H380mm

[Caution ON-ROAD and OFF-ROAD]
Please make sure that there is enough space between the muffler and the bag for installation. If the product comes in contact with a hot spot, it may melt and open a hole. Please take measures against heat especially in summer when the muffler is prone to high temperatures. If the belt is long, adjust the length by making heat cuts according to the vehicle. Be sure to install the belt so that it does not cover any lights. To avoid contact with the tires while driving, we recommend the use of side bag supports, etc.

[Conformance OFF-ROAD]
CRF250L / CRF250RALLY, SEROW250 / WR250R/X / Tenere700, KLX250 / D-TRACKER X / KLX230
*Africa Twin is not applicable. *For SEROW250/WR250R/X, use the stock muffler and stock heat guard.

Plasma ions and large air volume quickly deodorize and dry helmets and gloves!

DFG DEODORIZER

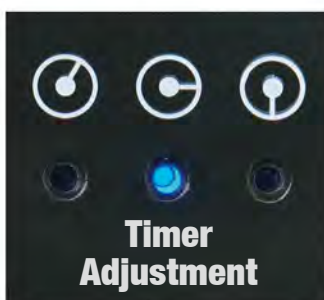

High airflow! Speedy drying inside the helmet.

Plasma discharge releases ions and radical active species to oxidize and decompose mold fungi and allergens. USB power supply allows use of your own smartphone charging adapter or mobile battery power source.

The included glove holder can be used to deodorize and dry gloves.

Weak / Medium / Strong
3 steps adjustment.

1/3/6 hours

[Caution]

*Not for use with boots or shoes.
*This product is not waterproof. Do not use in damp areas such as bathrooms, around water, or outdoors in the rain. Also, do not dry helmets or gloves that are wet to the level of dripping. It may cause malfunction.
*When drying a helmet, please use it with the shield open or goggles removed.

[Frequently Asked Questions]

Q: The unit stops when the air speed is set to "strongest" among the three levels.
This symptom occurs when an adapter with insufficient output, such as 1A, is used. Please make sure that you are using a power adapter that is DC5V / 2A or higher as specified by us. The adapter that comes with the iPhone is 1A.

<Example of symptoms confirmed by our company>

Power on: No problem
Power on low: No problem
Airflow medium: No problem
Air flow on high: Air flow becomes low. Stops and returns to the energized state.

Q: It does not work at all when turned on.

The product is not compatible with "USB PD (Power Delivery = Power Delivery)" standard chargers that enable high-speed charging. The power supply is being denied to protect the circuitry because more power is being supplied than is required by the product. Please use the USB cable included with the product and a 2A or higher charging adapter or mobile battery.

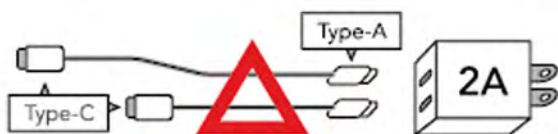

Murata's ionizer technology is used.

*Ionissimo® is a registered trademark of Murata Manufacturing Co.

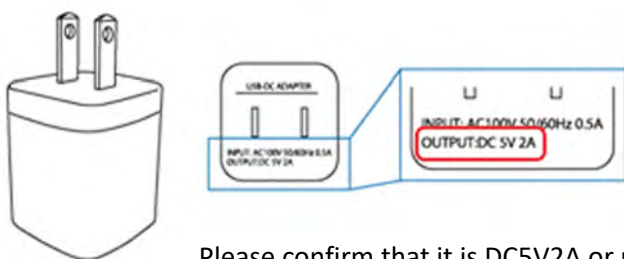

[Example of power delivery power supply]

*This adapter will not work.

*The system may not work when connected to multiple devices.

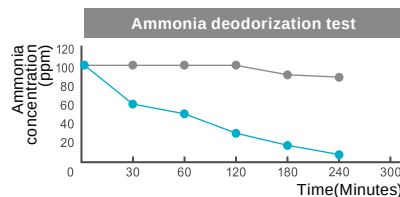

Please confirm that it is DC5V2A or more.

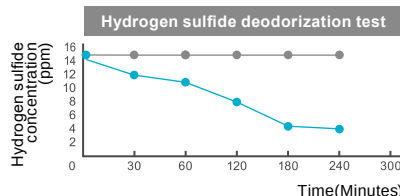

Ionissimo® is a plasma ion generator developed by Murata Manufacturing Co. The ionizer technology employed releases ions and radical active species through plasma discharge, which adhere to mold fungi and allergens and decompose them with participation.

Ionissimo® Effect

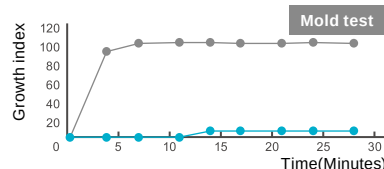

Deodorant test (ammonia)

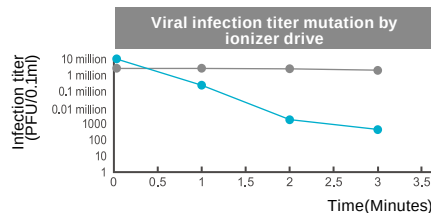

Deodorant test (hydrogen sulfide)

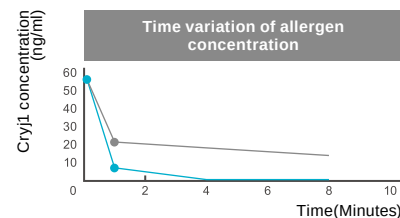

Mold Inhibition

Anti-virus

Allergen suppression of cedar pollen

*The above data is based on the results of device verification under specific conditions.
*Effectiveness is not guaranteed.
*Not all gold and viruses are eliminated.

DFG HELMET BAG JP

- Sponge foam outside of the bag absorbs shock protection.
- Soft fabric inside of the bag protects the helmet.
- Outer pocket is convenient for storing accessories such as goggles.

MATERIAL

■ COOLMAX

Coolmax is a high-performance material with the threat of quick-drying performance that is 6 times that of cotton. There are four grooves in one fiber, and the capillary action allows sweat to diffuse quickly. The diffused sweat evaporates while taking away the temperature of the body surface due to the heat of vaporization, resulting in a high cooling effect.

■ THERMOLITE

Thermolite is a high-performance material that has macaroni-shaped fibers and has excellent heat retention and quick-drying properties. Warm air can be retained in the hollow part of the fiber, so the warmth is maintained. In addition, it has a quick-drying performance that is 1.5 times faster than cotton, preventing sweat chills during exercise. Even in sports with intervals, the inside is always warm and dry.

1680D BALLISTIC POLYESTER

■ 1680D ballistic polyester

Polyester fabric with excellent abrasion resistance. It has both durability and flexibility.

■ SAS-TEC pad

Foam that slowly follows slow movements and instantly cures (hardness change) in case of fast impact. Since it is soft and light, it is ideal for motor sports where easy movement is important.
