ASTELIGHT HUB

- Racing spec hubs for real MX and ED racing.
- Compatible hubs, designed to use with OE spokes, rims and wheel spacers.
- CNC machined from durable aluminum.
- Light weight construction yet strong.
- Slant holes on the hubs to keep mud out from the hub body.
- Available in Black, Blue, H-Blue, Yellow, Green, Red and Orange colors.

Use OE or ZETA Wheel Spacers (P76) for installation.

DRASTIC WEIGHT REDUCTION

- ASTELIGHT HUB achieves thorough weight reduction through CNC process while keeping necessary and sufficient strength.
- The middle portion is boldly cut inside as shown in image (A), and has CNC process done even in areas not visible. Since a large force is not stressed to the portion of the oil seal in image (B), by reducing the thickness, it contributes to weight reduction.
- The accumulation detailed efforts achieves 2/3 weight compared to other brands.

HUB DESIGN

- The front hub is "concave design" that draws a gentle curved shape on the center body.
- Even with the thin design, the curve absorbs impact from outside.
- By having shaved the inside and smoothed the outside shape, there is no waste in performance.

DISTANCE COLLAR

- The material uses A7075 T6 aluminum to ensure sufficient strength. Even the non-visible portion reduces the weight by the thinning of the distance collar except at the ends.

COMPATIBILITY WITH STOCK BEARING AND OIL SEAL

- To have compatibility with the stock parts, easy maintenance is not the only target. But to use the same size as the manufacturer focuses importantly on balance.

STAINLESS NIPPLE WASHER

- A washer for nipples that prevents spokes from protruding by being installed between the rim and nipple.
- When assembling a wheel with an aftermarket rim and spokes, the spokes may protrude from the nipple depending on the compatibility of the parts, which may damage the tire tube.
- If spokes protrude about 1mm, using the nipple washer can prevent protrusion.
- Made of rust-resistant stainless steel.
- 40 pieces in a set.
